

Dental Marketplace POC Inventory

50 synthetic dental marketplace products with demo price, stock and item-specific return policy - designed for RAG / conversational-agent testing.

FOR POC / RAG TESTING ONLY. All SKUs, product names, prices, inventory quantities and return rules in this document are synthetic. Net32.com was used only as a structural marketplace baseline. This document is not Net32 inventory, pricing, terms or legal advice.

How the agent should interpret these records

Use the SKU-specific return rule as the highest-priority policy for an item. If a general marketplace rule conflicts with a SKU rule, the SKU rule wins. Damaged, incorrect or defective deliveries should be handled as support claims rather than ordinary buyer-remorse returns.

SKU	Product	Category	Package	POC Price	Stock	Item-specific return policy
DEN-001	Nitrile Exam Gloves - Small	PPE / Gloves	Box of 100	\$8.95	76	Return within 30 days if box is unopened, unused and in original packaging.

DEN-050	Articulating Paper - Blue/Red	Operatory	Box of 300 strips	\$13.50	44	30-day return unopened.

POC return-policy logic

- **Default rule:** 30 days, unused, unopened and in original packaging unless the SKU specifies otherwise.
- **Hygiene / infection-control items:** generally become non-returnable once opened.
- **Equipment:** DEN-043 through DEN-045 use 14-day return windows and separate manufacturer warranty coverage.
- **Expiration-sensitive items:** may require adequate remaining shelf life to qualify for a standard return.
- **Damaged / defective / incorrect shipment:** route to a support claim and do not apply the normal buyer-remorse rule automatically.
- **Restocking:** DEN-048 has a 15% restocking fee after packaging is opened, if otherwise eligible.

Suggested RAG precedence: structured order/inventory data -> exact SKU record -> specific policy subsection -> FAQ/general policy. This helps prevent a broad 30-day statement from overriding a stricter item-level rule.
